RE: R6 2005 ROD- Aminopyralid

Dear Mr Montoya,

We are writing in support of adding aminopyralid to the approved list of herbicides for use on the Wallowa-Whitman National Forest.

On 18 April, 2017, Wallowa County Weed Board members voted to approve our support for this action. As a group of weed managers, contractors, and concerned citizens, we encourage the use of more selective herbicides such as aminopyralid for noxious weed management.

Thank you,

Wallowa County Weed Board Members
